About Me

I am a Cse Undergrad who has a passion for technology and a keen interest in business, I am enthusiastic about fusing my technical expertise and entrepreneurial spirit. My proficiencies lie in various areas, including web development, Python, Java, UI/UX design, data structures, algorithms, Figma, Git, SQL, computer architecture, and system software. I am comfortable leading projects and delegating tasks, and I am always open to feedback and input from others.

Professional Experience

Campus Ambassador | RineX
Dec 2022
Key responsibilities:
- Represented RineX at various campus events, boosting brand awareness.
- Assisted in organizing workshops and seminars to engage students in tech-related activities.

Projects

- Developed a website which is based on virtual visit and taking knowledge about all mazaars of dawoodi bohra community.
- Created a responsive portfolio website showcasing a range of web development projects.
